

PROJECT SNAPSHOT

Client: Allerton Primary School
Site Ref: 2 playground areas to refurbish
Completion Date: June 2010

Allerton Primary School

A design and build project working closely with teachers to provide a natural play space.

The new playground areas were to enable the teachers to bring the curriculum outside and provide children with areas for planting/sensory, climbing, sound environment, den making and story telling. New playground equipment, different textures and surfaces were used to create 2 wonderful new playgrounds, doubling up as outdoor classrooms.

All areas were tailored towards imaginative play, encouraging children to create their own environments and letting their imaginations run wild!
