

# PROJECT SNAPSHOT

Client: Burnett Fields Children's Centre  
Completion Date: May 2010

## Burnett Fields Children's Centre

The design brief was to create an environment which promotes imaginative role play encouraging the children to create their own games and activities, letting their imaginations run wild.

To achieve this, the area was themed using colourful and imaginative Flexiplay™ wetpour safety surfacing which provided incredible visual and interactive play opportunities..

Playground equipment included role play panels, den making poles, play tables and stepping pods

*“The service that Burnett Fields Family Centre received from Pennine Playgrounds was nothing but positive. The play area more than met our expectations and has been a great success with children of all ages accessing the service. “*
