

PROJECT SNAPSHOT

Client: Lidget Green Primary
Completion Date: January 2011

Lidget Green Primary

The existing internal courtyard provided a challenge for both design and installation teams as the restricted access had to be considered throughout the project. The children now have a textured sensory circular path to engage their imagination and the new timber structure brings a new platform to their play time adventures

“The lads who fitted the play equipment were a credit to the firm. This has been a very difficult job working around the needs of the school as well as having to put up with atrocious weather and the two crews deserve our thanks”

Mike Pope, Head Teacher
