

PROJECT SNAPSHOT

Client: Nursery Rhymes
Site Ref: Outdoor Refurbishments
Completion Date: May 2010

Nursery Rhymes

This play area project initially presented a very a challenging design brief - to create a natural play area incorporating sensory pathways, planting, sound areas, performance and shade within a very small space.

Raised decking formed the main stage performance area, complete with shade canopies, musical panels and a role play wicker house.

Leading down to a visually stimulating sensory pathway with surrounding bespoke planters and bug boxes. Completing this area a sunken sandpit with full round logs to perimeter at varying heights.

"... the project was carried out professionally throughout the whole process, starting and completing on time and in budget, but most importantly the process was both refreshing and enjoyable.

The end product is simply stunning and meets every aspect of the EYFS and both our parents and children."

Andrea Parker, Nursery Proprietor
