

# PROJECT SNAPSHOT

Client: Great Aycliffe Council  
Site Ref: School Aycliffe Play Area  
Completion Date: November 2010

## School Aycliffe Play Area

The design brief was to create a safe and enclosed environment, which would promote imaginative role play. The children themselves chose the design and had a very clear idea of the type of playground equipment they wanted.

Bowtop fencing was added to the original site and graphics were laid into the new Flexiplay™ wetpour safety surfacing to present the children with visual stimulation. The children love the challenges and activities the playground equipment provides them with and lets them interact with their peers.
