

# PROJECT SNAPSHOT

Client: Three Lane Ends Primary School, Castleford  
Completion Date: September 2009

## Three Lanes End Primary

Mini mountains bring a fabulous new visual and physical enhancement to the play area at Three Lane Ends Primary in Castleford.

Pennine Playgrounds worked very closely with Main Contractor MD Communications to overcome the challenging access, as Team Pennine barrowed materials through the school corridor to access the inner school courtyard.

Despite the tight timescales, both teams managed to pull together in order to have the play area fully operational with minimal disruption to the school's working day.
